What is your interpretation of COVID-19?
Draw a picture based on your interpretation.

Read the text and complete the mind map.

The most common symptoms of COVID-19 are fever, dry cough, and tiredness. Other symptoms that are less common and may affect some patients include aches and pains, nasal congestion, headache, conjunctivitis, sore throat, diarrhoea, loss of taste or smell or a rash on skin or discoloration of fingers or toes. These symptoms are usually mild and begin gradually. Some people become infected but only have very mild symptoms.

SYMPTOMS OF COVID-19

1. _____

Common symptoms

2. dry _____

3. _____

1. aches and _____

2. nasal _____

3. _____

4. _____

Less common symptoms

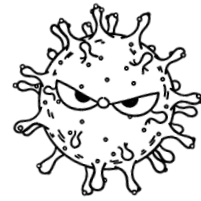

5. sore _____

6. _____

7. loss of taste or _____

8. rash on _____

9. _____ of fingers or toes
